2014 Bradley-Alavi Student Fellowship

Application Window November 1 – February 28, 2014

Description

The Bradley-Alavi Student Fellowships are designed to provide an introduction to and stimulate students’ interest in molecular imaging and nuclear medicine by supporting their full-time participation in clinical or basic research activities for three months (or less).

The Bradley-Alavi Fellowship, named for the donors—Drs. Jane and Abass Alavi—in honor of Dr. Stanley E. Bradley, a professor of Medicine at Columbia University College of Physicians and Surgeons until 1978 and a prominent researcher in the fields of renal physiology and liver disease.

These fellowships are made possible through a grant from the Education and Research Foundation for Nuclear Medicine and Molecular Imaging.

Requirements

This application must be completed in its entirety and submitted along with:

- Current curriculum vitae
- A detailed research proposal not to exceed 2 pages, excluding references
- A completed evaluation from the nuclear medicine faculty advisor overseeing the research (preceptor).
- At least one (preferably two) support letters from others involved in the applicant’s educational/research experience. The applicant’s preceptor may submit a letter of support, however, it must not be the sole letter received. Letters of support must be received by the application deadline in order to be accepted.

Applicant Eligibility:

A candidate from any country may apply. The applicant must:

- Be enrolled in a medical, pharmacy or graduate school, or be an undergraduate student demonstrating outstanding interest in nuclear medicine and/or molecular imaging research.
- Carry out fellowship during a three-month period between May 1 and December 31, 2014.
Evaluation:

Proposals will be evaluated on the following:

- Will the project provide a valuable educational experience to the student in molecular imaging and/or nuclear medicine?

- How essential is this grant to the applicant’s participation in the proposed research project? (Is the applicant already involved in MI/NM research? Would the applicant be involved even without this grant?)

- What is the likelihood that the applicant will be able to complete the project within 3 months?

- How qualified is the mentor to provide the applicant with guidance and support?

Number of Awards:

The number of 2014 Bradley-Alavi Student Fellowships is to be determined.

Value of Award: $3,000 each over 3 months
