HOW DO I SUBMIT MY ABSTRACT?

Abstracts submitted to, and accepted for, the SNM Scientific Program must be done electronically (no paper submissions accepted). To submit an abstract, please go to the SNM Online Submitter site at snm2010.abstractcentral.com. Here you will find easy step-by-step instructions explaining how to submit your abstract(s). Upon arrival, submitting authors are required to do the following:

1. First visit to the site: click the “Create an Account” link on the sidebar. This will generate a UserID and Password to use for future visits to the site.

2. Complete the required 5 steps for creating a user account, including submitting author’s financial disclosure information (Step 5). All authors are required to include “relevant” financial interests, even if the author has nothing to disclose. NOTE: Each byline author is required to submit financial disclosures individually: an email will be sent to all authors after the abstract has been successfully submitted. The deadline for submitting disclosures is January 12.

3. Complete the 11 abstract submission steps. A checkmark (✔️) will appear on the sidebar each time a step has been completed. Please complete each step in chronological order.

4. When arriving at the final step (Page Proof), carefully proofread all abstract elements. Error messages will appear if any required data is missing. The SUBMIT button will not appear until required data has been added or corrected.

5. Click the SUBMIT button and await confirmation of receipt. If you do not receive a confirmation email within 3 hours of successful abstract submission, contact service support.

6. Submitting author can choose to logout or submit another abstract. There is no limit to the number of abstracts a corresponding author can create and/or submit.

7. ALL ABSTRACT SUBMISSIONS MUST BE IN ENGLISH!

SNM offers 4 DISTINCTIVE ABSTRACT SUBMISSION PROGRAMS, each with its own set of categories. The submitting author will be required to select the most appropriate submission program to ensure the abstract will be placed in the proper scientific session, if accepted.

1. PHYSICIAN/SCIENTIST/PHARMACIST: this is SNM’s PRIMARY abstract program for submissions. Although this program is open to all authors, it is designed mainly for physicians, scientists, pharmacists, physicists, laboratory professionals, educators, and young professionals (e.g., fellows, residents, post-docs, medical and graduate students) in the field of nuclear medicine and molecular imaging.

2. EDUCATIONAL EXHIBITS: this poster-only program is designed mainly for nuclear medicine and molecular imaging residents/young professionals, program directors, and educators, but is open to submissions from all authors. Submitted abstracts may represent a review of any scientific, clinical or research topic. Unlike other categories, these abstracts do not have to include new, original research, but should be educational in nature, representing a review of a topic or a case series.

3. TECHNOLOGIST: this program is limited to medical science investigations to be presented by certified nuclear medicine technologists.

4. TECHNOLOGIST STUDENTS: this program is limited to medical science investigations to be presented by a technologist student currently enrolled in a certified nuclear medicine technologist program at the time of abstract submission. Although authorship is not exclusively reserved for students, the presenting author must be a student in a certified nuclear medicine technologist program. NOTE: Technologist students are REQUIRED, during abstract submission, to upload a letter (pdf) from their Program Director on official stationary verifying current enrollment in a nuclear medicine technologist program.
THOMSON REUTERS/SCHOLARONE ABSTRACTS
SNM and its abstract service provider, ScholarOne Abstracts, a division of Thomson Reuters, are pleased to offer a fully Internet-based content management tool for submitting scientific abstracts. This system will automatically save your work as you navigate from screen to screen, and allow you to preview your abstract prior to actual submission. It is strongly recommended that submitting authors carefully proofread and edit abstract(s) prior to the deadline or until the abstract has been finally submitted. Email confirmations are auto-generated once an abstract has been successfully submitted. If a confirmation-of-receipt email is not received within 24 hours of abstract submission, please contact Thomson Reuters/ScholarOne Abstracts at http://mchelp.manuscriptcentral.com/gethelpnow/abstractcentral/quest.

HOW TO SUBMIT AN ONLINE SUPPORT TICKET
http://mchelp.manuscriptcentral.com/gethelpnow/abstractcentral/question.htm

This webpage is also accessible by clicking the “Get Help Now” button during abstract submission. Use the following steps:

1. Click “Get Help Now”
2. Click “Contact ScholarOne Abstracts Support”
3. Click the “click here” link to submit a case by email.

Important Dates
• October 22, 2009
  Online Submitter Opens
• January 6, 2010
  Online Submitter Closes (except Technologist Students)
• January 18, 2010
  Registration & Housing Open
• February 5, 2010
  Online Submitter Closes for Technologist Students
• February 11, 2010
  Abstract Withdrawal Deadline
• March 24, 2010
  Acceptance/non-acceptance Email Notifications to Submitting Authors
• April 23, 2010
  Pre-registration Deadline – presenting authors of accepted abstracts are REQUIRED to register for the 2010 SNM Annual Meeting
• June 5-9, 2010
  2010 SNM Annual Meeting in Salt Lake City, UT

Cardiovascular Track
• Cardiovascular-Basic Science
• Cardiovascular-Clinical Science
• Cardiovascular Council Young Investigator Award Symposium

Neurosciences Track
• Neurosciences-Basic Science
• Neurosciences-Neurology
• Neurosciences-Psychiatry
• Brain Imaging Council Young Investigator Award Symposium

Instrumentation & Data Analysis Track
• Instrumentation
• Image Generation
• Data Analysis & Management
• Computer and Instrumentation Council Young Investigator Award Symposium

Radiopharmaceutical Chemistry Track
• New Radiopharmaceuticals-Broader/General Applications
• New Radiopharmaceuticals-Neurosciences
• New Radiopharmaceuticals-Novel Probe Development
• New Radiopharmaceuticals-Oncology
• New Radiopharmaceuticals-Cardiovascular
• Radiopharmacy
• Dosimetry/Radiobiology
• Radiopharmaceutical Sciences Council Young Investigator Award Symposium

General Clinical Specialties Track
• Endocrinology
• Gastroenterology
• Infectious Disease/Hematology
• Musculoskeletal
• Pediatrics
• Pulmonary
• Renal/Electrolyte/Hypertension
• Operations/Practice-Based/Outcomes Research
• General Practice-Oncology

Molecular Imaging: Non-radioactive/Multimodal Imaging and Clinical Trials Track
• Clinical Applications of Non-radioactive/Multimodal Imaging
• Non-radioactive Probe Development
• Clinical Trials
• MICoE Young Investigator Award Symposium

Oncology-Basic Science Track
• Basic Science
• Radiopharmaceutical Therapy
• Image Guided Therapy
• Technical Issues & Quantification
• Translational/Preclinical Nuclear Medicine
• Nuclear Oncology Council Young Investigator Award Symposium

Oncology-Clinical Diagnosis Track
• Breast Cancer
• GI–Colorectal & Liver
• GI–Non-colorectal
• Gynecological
• Head & Neck
• Leukemia/Lymphoma/Myeloma
• Lung
• Neuroendocrine
• Prostate/Genitourinary
• Sarcoma/Melanoma
• Other Tumors
• Nuclear Oncology Council Young Investigator Award Symposium

Technologist Abstract Track
• Cardiovascular: Basic and Clinical
• Cardiology: PET
• General Nuclear Medicine
• Instrumentation & Data Analysis
• Inflammation & Infectious Disease
• Neurology: Basic and Clinical
• Neurology: PET
• Oncology Therapy
• Oncology: PET
• Professional & Educational Practices
• Radiopharmaceuticals
• Radiation Safety & Dosimetry/Radiation Biology

Technologist Student Abstract Track
• Cardiology
• General
• Instrumentation
• PET
• Radiopharmacy
• Radiation Safety & Patient Care

Educational Exhibits Track
• Cardiovascular
• Correlative Imaging
• General Clinical Specialties
• Neurosciences
• Oncology
• Radiopharmaceutical Chemistry
SNM is calling for scientific abstracts submitted to the Molecular Imaging: Non-radioactive/Multimodal Imaging and Clinical Trials track for the 2010 SNM Annual Meeting in Salt Lake City, Utah, held June 5-9, 2010. This track has been organized by the Molecular Imaging Center of Excellence (MICoE) and the SNM Scientific Program Committee to seek out scientific investigations focusing on non-radioactive and multimodal imaging techniques and agents, as well as studies relating to clinical trials in which molecular imaging is used as a biomarker or surrogate for outcomes in the development of therapeutic drugs.

This track offers a unique venue to present and discuss such investigations. **NOTE:** Investigations involving radiopharmaceuticals and techniques used to detect radiation should be submitted to this track only if used in combination with non-radioactive molecular imaging techniques and agents. Detailed descriptions for the three (3) categories associated with this track are posted on the abstracts website at www.snm.org/abstracts.

**CATEGORIES**
- Clinical Applications of Non-radioactive/Multimodal Imaging
- Non-radioactive Probe Development
- Clinical Trials

**MICoE YOUNG INVESTIGATOR AWARD (YIA) SYMPOSIUM:** The objective of this award session is to recognize promising young investigators working in the broad field of molecular imaging. To be considered, authors must check the “MICoE Young Investigator Award Symposium” checkbox during abstract submission. **IMPORTANT NOTE:** Abstracts submitted to any track within the Physician/Scientist/Pharmacist program can be considered for the MICoE YIA symposium. Further details of this award symposium can be found on the abstracts website.

www.snm2010.abstractcentral.com

**NEW TRACK FOR 2010 —Molecular Imaging: Non-radioactive/Multimodal Imaging and Clinical Trials**

SNM is calling for scientific abstracts submitted to the Molecular Imaging: Non-radioactive/Multimodal Imaging and Clinical Trials track for the 2010 SNM Annual Meeting in Salt Lake City, Utah, held June 5-9, 2010. This track has been organized by the Molecular Imaging Center of Excellence (MICoE) and the SNM Scientific Program Committee to seek out scientific investigations focusing on non-radioactive and multimodal imaging techniques and agents, as well as studies relating to clinical trials in which molecular imaging is used as a biomarker or surrogate for outcomes in the development of therapeutic drugs.

This track offers a unique venue to present and discuss such investigations. **NOTE:** Investigations involving radiopharmaceuticals and techniques used to detect radiation should be submitted to this track only if used in combination with non-radioactive molecular imaging techniques and agents. Detailed descriptions for the three (3) categories associated with this track are posted on the abstracts website at www.snm.org/abstracts.

**CATEGORIES**
- Clinical Applications of Non-radioactive/Multimodal Imaging
- Non-radioactive Probe Development
- Clinical Trials

**MICoE YOUNG INVESTIGATOR AWARD (YIA) SYMPOSIUM:** The objective of this award session is to recognize promising young investigators working in the broad field of molecular imaging. To be considered, authors must check the “MICoE Young Investigator Award Symposium” checkbox during abstract submission. **IMPORTANT NOTE:** Abstracts submitted to any track within the Physician/Scientist/Pharmacist program can be considered for the MICoE YIA symposium. Further details of this award symposium can be found on the abstracts website.

**YOUNG INVESTIGATOR AWARD SYMPOSIA**
SNM, in association with SNM Councils, sponsors six (6) competitions for the best scientific abstracts submitted to categories within the Cardiovascular, Neurosciences, Instrumentation & Data Analysis, Oncology, Molecular Imaging and Radiopharmaceutical Chemistry Tracks. These prestigious, well-attended, 90-minute award sessions offer young professionals the opportunity to showcase their research in a forum of their peers and mentors. Authors must indicate their interest during abstract submission (by clicking the checkbox provided) to be considered for the award. Up to seven (7) abstract finalists will be selected for each of these award symposia. Quality of presentation during the scheduled session will be the final criteria for which the winners are determined. Presenting authors of award-winning abstracts will be recognized during SNM council business meetings.

*Eligibility requirements apply. Presenting authors of accepted abstracts will be the recipients of these awards. Awards are determined based on the quality and nature of the material to be presented to the selected panel of judges. Further details will be posted on the SNM Abstracts webpage, www.snm.org/abstracts, on January 29, 2010.

**2010 TRAVEL AWARDS**
SNM/SNMTS Travel Awards* will be available to help support the financial obligations of those who will be traveling to the 2010 SNM Annual Meeting in Salt Lake City in order to present their accepted molecular imaging abstracts. The awards are granted to the presenting author to cover costs including, but not limited to, registration, airfare, and accommodations. Travel awards will be available to:

- MD, PhD students
- Postdoctoral/clinical trainees
- Nuclear medicine technologists
- Nuclear medicine technologist students

*Eligibility requirements apply. Applications for SNM and SNMTS travel awards will be accepted in April 2010, after authors have been notified of abstract acceptance. Presenting authors of the accepted abstracts will be the recipients of all travel awards. Award-winning abstracts are determined based on the quality and nature of the material to be presented. Further details can be found on the SNM Grants, Awards, and Scholarships webpage, www.snm.org/grants, after January 29, 2010.
**Reminders**

**Reminders When Submitting Abstracts**

1. **Author Name Consistency:** If an author’s name appears on more than one abstract, the spelling of, and initials used for, author’s name should be identical on each abstract to facilitate accurate author indexing.

2. **Changes to Abstracts After Submission Deadline:** Submitting authors are responsible for carefully proofreading abstracts and making all needed corrections/updates before the submission deadline. Changes to abstract titles, text, or supporting data as well as adding or deleting author/institution names will not be permitted after the submission deadline (January 6, 2010).

3. **Disqualification for Submitting Duplicate Abstracts:** Multiple abstracts containing identical or nearly identical data submitted by the same author will be disqualified. It is inappropriate to submit essentially identical abstracts to different tracks, categories or other programs.

4. **Abstract Withdrawals:** Requests for withdrawal of an abstract MUST be received by email no later than Friday, February 11, 2010 to be removed from SNM abstract publications. To request a withdrawal, please contact Thomas Reuters/ ScholarOne Abstracts Tech support. ONLY the Submitting Author of the abstract can request a withdrawal. When making the request, include author name, abstract submission number and abstract title.

5. **Abstract Presentation Commitment:** Submission of an abstract constitutes a commitment by the Presenting Author to present, if accepted. Failure to present will jeopardize future acceptance of abstracts by SNM. All costs associated with registration, travel, meals, lodging and other necessary expenses to attend and present abstracts at the SNM Annual Meeting are the responsibility of the presenter.

**Abstract Acceptance**

ALL submitting authors will be notified of abstract acceptance/non-acceptance by March 24, 2010. If you have NOT been notified regarding the acceptance status of your abstract by March 24, please contact ScholarOne Abstracts Tech Support. Presentation guidelines for oral and poster presentations will be posted on the SNM Abstracts website at www.snm.org/abstracts by January 24, 2010.

**Registration**

Upon notification that your abstract has been accepted for presentation at the 2010 SNM Annual Meeting, it is incumbent upon the Presenting Author (or designated substitute, if applicable) to honor his/her commitment to present. It is encouraged to take advantage of the Pre-Registration (discounted) rates offered by SNM.

Pre-Registration Opens: January 18, 2010
Pre-Registration Closes: April 23, 2010
www.snm.org/am

**Declaration of Financial Interests or Relationships**

(Please read carefully)

As an Accreditation Council for Continuing Medical Education (ACCME) accredited provider SNM is committed to:

- Adhering to the ACCME’s Standards for Commercial Support
- Ensuring balance, independence, objectivity and scientific rigor in all Continuing Medical Education (CME)
- Presenting CME activities that promote improvements or quality in healthcare and are independent of the control of commercial interests.

Therefore it is SNM’s policy that:

- All involved in a position to control the content of an education activity – speakers, authors, planning committee members, organizers, moderators and staff – complete disclosure forms identifying relevant financial relationships for CME activities at the beginning of the planning phase.
- Disqualify any individual who refuses to disclose relevant financial relationships from being a planning committee member, teacher or an author of CME.
- Any employee of a commercial interest cannot serve as a presenting author for content that is related to the interests, products, or services of their employer.
- SNM will disclose to participants any relevant financial relationships prior to the CME activity.

**Disclosure of Financial Interests**

A financial conflict of interest is deemed to exist when speakers, authors, planning committee members, organizers, moderators and staff and/or a member of his or her immediate family, has a direct or indirect financial interest with a commercial organization that has the potential for increasing the value of the financial relationship with the commercial organization and influence the content of CME. Such direct or indirect financial interest includes:

1. consulting agreements
2. employment contracts
3. clinical trial agreements
4. royalties
5. grants
6. the receipt of honoraria or gifts from such organizations
7. any signed agreements that will generate guaranteed deferred compensation

In addition to the above disclosure of financial interests, any stock holdings should be disclosed. Disclosure is similarly requested for all stock options and royalty rights, regardless of their apparent value.

**FDA Disclosure**

When an unlabeled use of a commercial product, or an investigational use not yet approved for a given purpose by the U.S. Food and Drug Administration (FDA) is discussed during an educational activity, SNM requires the corresponding author to disclose that the product is not labeled for the use under discussion or that the product is still investigational. Disclosure is required for each drug or device that is encompassed by the criteria and is identified as an important component of the presentation.

Each author listed in the byline is required to submit his/her financial disclosure.
